"WAR OF KINGS"  
2015

## **War of Kings**

### **"War of Kings"**

A promise on the edge of madness  
An oath amongst the world of men  
Gonna drive them into exile  
Or never let them breathe again

On that night  
Under the raging northern sky  
The seeds of legend lie  
Slaughtered almost to a man  
The war of kings began

In a land thrown into darkness  
An army would arise  
The heathens died laughing  
At the king's men heads bourne high

On that night  
Under the raging northern sky  
The seeds of legend lie  
Slaughtered almost to a man  
The war of kings began

The war of kings began

### **"Hole in My Pocket"**

Hear the cry of the battle born  
God is working his ways tonight  
Way back we owned this road, yeah  
But it's a future I can live without  
One spark lit up this place  
Two sparks, baby, amazing grace  
Breakneck speed, can't read the signs  
You got me running clean out of time

Let's all pretend  
We don't pretend  
It's not the end  
It doesn't get better than this

Hole in my pocket  
Stone in my shoe  
Time keeps on winning  
What can you do  
I just can't stop it  
I'm blowin' a fuse

Time keeps on winning  
What can you do

Hey baby, how did we get here  
Always thought we were already there  
Spend my money to buy more time  
Now forever's kicking me around  
Hey listen, I'm not taking calls  
Ain't going back to nothing at all  
Against all odds and evidence  
I knew my sun was gonna rise again

Let's all pretend  
We don't pretend  
It's not the end  
It never gets better than this

Hole in my pocket  
Stone in my shoe  
Time keeps on winning  
What can you do  
I just can't stop it  
I'm blowin' a fuse  
Time keeps on winning  
What can you do

### **"The Second Day"**

On the first day the writers claimed  
There's nothing here that can't be explained

On the second day the rumors fly  
People talk about an unprecedented lie  
On the third day, well, where do I start  
The sorrow, the breaking of the human heart

I just wanna scream out her name

There's a place we just cannot reach  
There's a light we just cannot see  
There's a hope that won't give out  
It should be all we talk about  
There's a soul reaching out in fear  
No reply in the time we're here  
We won't forget those faces  
We fall to pieces

On the fourth day the pressure will blow  
The world is someplace that we used to know  
On the fifth day no direction home

Empty sky, hollow Earth, all is gone

I just wanna scream out her name

There's a place we just cannot reach  
There's a light we just cannot see  
There's a hope that won't give out  
It should be all we talk about  
There's a soul reaching out in fear  
No reply in the time we're here  
We won't forget those faces  
We fall to pieces

On the second day the rumors fly  
People talk about an unprecedented lie

There's a place we just cannot reach  
There's a light we just cannot see  
There's a hope that won't give out  
It should be all we talk about  
There's a soul reaching out in fear  
No reply in the time we're here  
We won't forget those faces  
We fall to pieces

### **"Praise You"**

There's some shadows in a courtyard  
Dearly pictured in my mind  
Two young lovers moving slowly  
A desire they can't hide

I wanna thank you  
I wanna thank you  
Let it be said

I wanna praise you all over  
I wanna praise you all right  
From the first time I saw you  
I just gotta be in your mind

There's a city, our city  
Brought us together in our time  
I was drifting, I look around me now  
And I know I did, I did something right

I wanna praise you all over  
I wanna praise you all right  
From the first time I saw you  
I just gotta be in your mind

I wanna praise you all over  
I wanna praise you just right  
From the first time I had you  
I just gotta be on your mind

I wanna praise you, wanna praise you, wanna praise you  
All over, all over, all over  
From the first time I had you  
I just gotta be in your mind

I just gotta be

### **"Nothin' to Ya"**

Of all the streets, of all the days  
You just had to invade my space  
Of all the moves, of all my crazy moves  
Just had, it just had to be made on you  
Oh, c'est la vie

If you swear that I mean nothin' to ya  
Hand on heart, no, I can't do it for ya  
But if you're lying I'll be coming for ya  
If you swear that I mean nothin' to ya

Of all the lows, of all the highs  
I just had to, had to make 'em mine  
Of all the words, of all our fights  
It became the best years of my, the best years of my life  
Oh, c'est la vie

If you swear that I mean nothin' to ya  
Hand on heart, no, I can't do it for ya  
But if you're lying I'll be coming for ya  
If you swear I mean nothin' to ya

If you swear I mean nothin' to ya  
There's nothing I can do for ya  
If you're lying I'll be coming for ya

If you swear that I mean nothin' to ya  
Hand on heart, no, I can't do it for ya  
But if you're lying I'll be coming for ya  
Can you swear I mean nothin' to ya

I mean nothin' to ya

### **"California 405"**

I know it's late but I've had enough  
Let's go for a drive, baby, shake it up  
The headlines cut so deep these days  
You give me that spark to light up the place

It's like we're going nowhere  
With just enough light to see

Now we're rollin' down California 405  
The night is open wide  
Oh, how this world has changed  
But tonight we're free again  
Baby to whatever end

Well, no one is foolin' anyone  
No exit signs on the road we're on

Headin' out to nowhere  
With just enough light to see

Now we're rollin' down California 405  
The night is open wide  
Oh, how this world has changed  
But tonight we're free again  
Baby to whatever end

### **"Days of Rock 'N' Roll"**

Somebody told me it's all the same now  
Somebody told me we've had our turn  
I gotta believe that time's still ours  
I gotta believe it's still ours to burn

The light seems to be fading  
I'm crawling back into that hole  
Where the soul seems to awaken  
Them days of rock 'n' roll  
Days of rock 'n' roll

Somebody told us to shake and shiver  
He left the building not long ago  
Somebody sold us down the river  
Full of scratches and bullet holes

It comes raging out of nowhere  
Like some wreckage to behold  
We still drink out of the fountain  
Of them days of rock 'n' roll

Days of rock 'n' roll  
Days of rock 'n' roll

It comes raging out of nowhere  
Like some wreckage to behold  
We still drink out of the fountain  
Of them days, them days of rock 'n' roll  
Days of rock 'n' roll  
Days of rock 'n' roll

### **"Children of the Mind"**

In a house of stories  
Build a temple in your name  
Live my whole existence  
Crawling back again

Children of the mind  
No sun, no moon, no sign  
Stealing light, stealing time  
Children of the mind  
Children of the mind

Carve your name in stone  
I'm howlin' at your feet  
I'll cave with my resistance  
Will be the life and death of me

Children of the mind  
No sun, no moon, no sign  
Stealing light, stealing time  
Children of the mind  
Children of the mind, yeah

Children of the mind

### **"Rainbow Bridge"**

Like all the rivers we have flown together to the sea  
Like all the stars that have aligned to something heavenly  
Like all the forces of the dark we're creating below  
Nothing can touch the living hope the human spirit owns

So we run across the rainbow bridge  
We're running for our lives and mistakes we made  
Until there's nothing to forgive  
We rage across, we rage across the rainbow bridge

Just like we crossed so many lands just to be here now

Well, we're still longing for a place we know nothing 'bout  
Hey

So we run across the rainbow bridge  
We're running for our lives and mistakes we made  
Until there's nothing to forgive  
We run across, we rage across the rainbow bridge

We rage across the rainbow bridge  
We're running for our lives and mistakes we made  
Until there's nothing to forgive  
We rage across, we rage across the rainbow bridge

### "Angels (With Broken Hearts)"

We build our wings  
In so many ways  
We build our hope  
It's the last thing to fade  
And we build our love  
Please don't take it away

Out of the night  
Come these angels with their broken hearts  
They watch us tear this world apart  
Oh no  
Out of the night  
Come these angels with their broken hearts  
For you, yeah

We build our lives  
Hopefully the one that we choose  
We keep our faith  
When there's nothing left to lose  
And we give our hearts  
Please don't tear them apart

Out of the night  
Come these angels with their broken hearts  
They watch us tear this world apart  
Oh no  
Out of the night  
Come these angels with their broken hearts  
For you  
Here's what they're saying

Out of the night  
Come these angels with their broken hearts  
They watch us tear this world apart  
Out of the night

Come these angels with their broken hearts  
They watch us tear this world apart  
Apart

### **"Light It Up"**

I was circling 'round like a lost dog at night  
Sniffin' around for some sign of life  
Then Sammy sang and it felt so right  
It started up a fire that's never been put out

'Cause every star is a fading sun  
Let's light it up  
Every kid got to hit the ground and run  
Let's light it up  
Oh, light it up

Now things began to change in my neighborhood  
The girls were looking pretty and the booze began to taste so good  
Every generation's gotta go 'round the bend  
Take a little trip and hopefully get back again

'Cause every star is a fading sun  
So come on, light it up  
Every kid got to hit the ground and run  
Let's light it up

'Cause we want it, yeah, we want it  
We can have it, so let's have it  
Yeah, we want it, yeah, we want it  
We can have it, let's have it  
Let's have it

Every star is a fading sun  
Hey, let's light it up  
Every kid got to hit the road and run  
Come on, let's light it up  
Let's light it up
