## On the Loose (first version)

Running out on the streets  
I live from day to day  
I'm looking for something to do  
Sometimes I need to get away

I'm hoping that maybe some day  
I could be someone  
I'm praying that maybe one day  
I could be number one

I know there's something here for me  
'Cause I always tend to be

On the loose  
So young, so tough, so wild  
On the loose again

Dreaming, dreaming about  
All the things I'd like to do  
Trying, yes, I'm trying so hard  
I want to make it all up to you

## Broken Dreams

Wherever I decide to go  
Whatever I decide to do  
There's one thing you ought to know  
I always miss you so

You had me in the palm of your hand  
But I fell through like a grain of sand  
But you remain inside my heart  
Wherever I may go

Broken dreams  
Leave you standing so sad  
Broken dreams  
They can hurt you so bad

But what can I say  
Am I to blame  
And if I did stay  
It wouldn't be the same

I'm sorry that it turned out wrong  
My feelings were not quite that strong  
I wish you all happiness  
Wherever you belong

There isn't much left to explain  
But let me tell you it was not in vain  
Those moments, they weren't meant  
To cause you any pain

## Give a Helpin' Hand

There's a girl with a little child  
To them the world's so wild, so wild  
And now the future has turned out  
So insecure, insecure

There's a boy and he's wondering why  
He rides alone under the clear blue sky  
Oh, he's been standing there for days  
Just wondering why, oh, wondering why

Together we can change the world  
Together we must try  
Together we can save the world  
And help us all survive  
And give a helping hand  
A helping hand

There's a dream and we spread the word  
That we all can save this world  
There's a sun that will shine for all of us  
All our lives, yeah

Together we can change the world  
Together we must try  
Together we can save the world  
And help us all survive  
And give a helping hand  
A helping hand

Oh, let's all give a helping hand

**Carrie (demo)**

When lights go down  
I see no reason for you to cry  
We've been through this before

In every time, in every season  
It's always there  
You need it more and more

Carrie, Carrie, maybe we'll meet again  
Carrie, Carrie, maybe we'll meet  
Again

When darkness falls  
I see no reason for you to cry  
We've been through this before

In every time, in every season  
It's always there  
You need it more and more

Carrie, Carrie, maybe we'll meet again  
Carrie, Carrie, maybe we'll meet  
Again

We'll meet again

## Heart of Stone (demo)

Don't push it now like you did before  
Don't you come back, don't come back no more  
'Cause you've been out far too many times now

And even though you're mistreating me  
I know the girl that you used to be  
But you've been out far too many times now

Time after time, I'm wondering why  
Am I to be all alone  
And day after day, I pray that you'll stay  
'Cause you've got a heart of stone

Just like a beast you come back for more  
And I'm a fool, now she'll lock my door  
And even though you're still the one I wait for

I told you once, but I tell you twice

Yes, things you like, now she'll close your eyes  
And I'm afraid that one day you'll be sorry

## Can't You Stay

Tell me why your body's trembling  
When I call out your name  
Tell me why your hand is shaking, girl  
When I tell you it's the same

When the moon decides to leave the Earth  
Flown out in the cold  
I tell you now like I did before  
Our love will be so old

Singing, hey, can't you stay  
You don't have to go away  
'Cause maybe you don't mean those things  
That you sometimes say

Singing, hey, can't you stay  
You don't have to go away  
'Cause your heart remains here anyway

Like a fire that's been burned down  
You can feel your heart is lost  
Like a soldier who's been wounded  
So many bridges slips to cross

In your mind you think it's over  
But it could never last  
But I tell you what I feel right now  
Too many years have passed

Singing, hey, can't you stay  
You don't have to go away  
'Cause maybe you don't mean those things  
That you sometimes say

Something I want to know  
Tell me, tell me  
Hey girl, why don't you tell me  
Your body's shaking all over  
Tell me why you're trembling

You gotta tell me, girl  
Don't ever leave me

## On Broken Wings

Little Jeanie cried  
She believed in all his lies  
So much for being good

Johnny did not rest  
He did what he thought was best  
He did the best he could

Don't try to see the world in different ways  
Those moments and all those days  
Don't let them fade away

On broken wings  
I guess that's how you'll have to fly  
Two broken hearts across the sky

Now he's feeling bad  
His heart is cold  
He's oh, so sad  
Somehow he did her wrong

Little Jeanie's heart  
Is mending fast  
Oh, so fast  
Now she feels so strong

## Here Comes the Night

Listen up  
There's something you gotta know

Here comes the night  
It's gonna be a long and lonely night  
Oh Lord, I pray it's gonna be alright  
This long and lonely night

As I walk on down this dusty road  
My heart weighs down like a heavy load  
My spirit finds its way across the ocean

And my soul cries out for leaving now  
I've got to get back home somehow  
She stole my heart, oh, how my spirit cried  
'Cause I had to leave and it broke me up inside

Here comes the night  
It's gonna be a long and lonely night  
Well, I see tomorrow in a different light  
This long and lonely night

I've got a weary head and worn out shoes  
A bottle of rum and as I sing the blues  
The bitter wind sends shivers down my spine

I've gone a rambling man with a rambling mind  
I left my loved one far behind  
She stole my heart, oh, how my spirit cried  
'Cause I had to leave and it broke me up inside

Here comes the night  
It's gonna be a long and lonely night  
Oh Lord, I pray it's gonna be alright  
This long and lonely night

Oh, bless my soul, what have I done  
I'm bound to face this world alone  
A drifter I was meant to be  
With no one there for company

But if one day, down the road I came  
Would you look my way  
Would you take me back again

Here comes the night  
It's gonna be a long and lonely night  
Well, I see tomorrow in a different light  
This long and lonely night

As my soul cries out for leaving

## **Blame It on Me**

I paint a picture, a picture in my head  
We had everything  
All those good times that we had  
There was a time in our lives

When everything was right  
We had love

But there's nothing sacred, sacred any more  
That's why I need your loving  
Just like I did before  
There was a time in our lives  
When everything was right  
We had love

So by the light of the morning  
I'm gonna make my way  
Not a word, not a warning  
To steal your heart away

Yes, by the light of the morning  
That's where I'll be  
Oh darling, darling, darling  
Just blame it on me  
Blame it on me

I've been searching  
Time and time again  
Since I lost your loving  
It's never been the same  
There was a time in our lives  
When everything was right  
We had love

## Break Free

Well, it's been another doggone day  
I'm ready for this trashed out town  
I'll be doing all those crazy things  
That make the other heads spin around

They're tellin' me the ride ain't worth the fall  
Oh, but stop me if you can, I want it all

'Cause I'm ready, yes, I'm ready  
To break free, ready to break free

I'm tired of just killing time  
Talkin' 'bout the days gone by  
So I'm takin' on the world tonight  
I'm out to let my spirit fly

Oh, they say what goes around will come around  
But there's nothin' in this world to hold me down

## Long Time Comin'

We're gonna rock so hard, we're gonna let it go  
If you want it loud, hey, let me know  
It's been a while since we've been gone  
We had it tough, now the hurt is gone

Well, when the day is done, when the day is through  
Listen close, this is what we'll do  
Comin' down like a ton of lead  
Like a ton of lead, that's what I said

It's been a long time comin'

Hey, you can tear us up, tear us down  
Before too long we'll be back around  
Fallin' in, fallin' out  
Well, this time around there ain't no doubt

We'll walk on through the break of day  
Once again we'll be on our way  
Ain't no time to wonder why  
Just try to keep the drive alive

## Sweet Love Child

Sweet love child

She stands in the doorway  
In the pale moonshine  
When she looks at me, every part of me  
Brings my soul back to life

With eyes like a rainbow  
They cut right through  
Oh, I'm lost in time  
All through my mind  
I'm in love, what can I do

Sweet love child

I shiver, I shiver and shake  
It's been a long, long time  
When she touches me, every part of me  
Just comes back alive

She rides like the wind  
On a summer's night  
And she gives and takes  
In the love she makes  
She makes everything so right

My sweet love child

By the light of the morning  
Like an angel's sigh  
I can feel her breath  
Lying next to me  
With the world locked outside

I can feel  
A taste so sweet  
And she gives me love  
All the precious love  
It makes my life so complete

Sweet love child

So sweet

## Wanted Man

So we'll meet again, this old loneliness, my friend  
Who would ever guess it would come to this, my friend  
Like a sojourner, you know my heart is torn, my love  
I will rise again as I ride alone, I know

So baby, do you understand  
That my world has come undone  
Don't you know it hurts so bad  
When there's nowhere you belong

When you're wanted  
A wanted man

If the winds would change, would it ease my pain, oh Lord  
Will I ride on through with your guidance from above

As I turn around, I see tracks of wasted years  
Will I find my peace, will I lose this world of fear

## Yesterday's News

Hey, hey  
Mmmm, I got somethin' to tell ya'  
Got a story 'bout it

I'm catching a fast train, soon I'll be long, long gone  
And I shoot through the night like a bullet from a loaded gun

They've been tryin' to use me, lie and abuse me  
They've been tryin' to break me, no one can take me  
No way

Now I'm way down  
I'm so down I'm readin' yesterday's news

I woke up this morning, leavin' on my mind  
And I said to myself, I ain't gonna waste more time

I need someone to save me, love and embrace me  
They've been tryin' to get me, trying to set me up  
Bad luck

Now I'm way down  
I'm so down I'm readin' yesterday's news

But I got time on my hands, I know what I'll do  
One day, babe, I know I'll come through  
'Cause I know in my heart, there are things to be said  
For the pain that I suffer, and the price that I pay

## Stranded

One thing I remember  
I was running for the door  
And then I felt an anger  
Like never before

I guess you had your reasons  
For making up your lies  
But when I saw you lay  
You had tears in your eyes

Hey, hey, hey, I'm gonna make it alright now  
Hey, hey, hey, I'm gonna take it all the way

Stranded, stranded  
Though you left me standing there alone  
Stranded, stranded  
I always will believe that life goes on

The next thing I remember  
I pretended I was strong  
I asked you to surrender  
But the words came out wrong

Though I feel mistreated  
Wounded deep within  
I'll never stand defeated  
No, I'll never give in

Hey, hey, hey, I'm gonna make it alright now  
Hey, hey, hey, I'm gonna take it all the way

Stranded, stranded  
Though you left me standing there alone  
Stranded, stranded  
I always will believe that life goes on

Nothing can stop me now

## Rainbow Warrior

Lock the door, dim the light  
Here's a tale for you tonight  
Let me take you away

Well, take my hand and follow me  
Mother Mary's child to be  
I've got something to say

Rainbow warrior, shine on  
Rainbow warrior  
Sign your will across the sky  
Follow me 'til the day you die

One for all and all for one  
Walking through the gates of dawn

We've been waiting so long

Children sang from near and far  
Come and see the newborn star  
See it shining so strong

## Wild Child

Wild child, yeah

I said, you, what's with that talk  
You're just a punk with an attitude  
So take a walk, boy

I said, you, get outta my face  
You need a handful of dollars  
Just to get into this place

Wild child, get it on now  
Wild child, get it on tonight

I said, You, you're not from this town  
We've got an old crowd here tonight  
So don't stick around, boy

I said, You, you ain't got no style  
Well, I say, you're unemployed  
And it shines through all the way

## Don't Know How to Love No More

I need you here tonight  
Your body next to mine  
I haven't seen you for a while

I need your tender kiss  
The touch of your fingertips  
I haven't seen you for some time now

I need to touch you like I used to do before  
Though I have touched you, girl  
A million times or more

I don't know how to love no more  
I don't know what I'm waiting for

Take it to your heart, my friend  
And teach me how to love again

I don't know how to cry no more  
So tell me what I'm living for  
Take it to your heart, my friend  
And teach me how to love again  
Yeah, teach me

I need you here tonight  
To squeeze and hold you tight  
And feel your skin so close to mine

I wonder where you are  
So near but yet so far  
Your name is always on my mind

## Talk to Me (demo)

September rain is falling  
I see you in the street, just passing by  
And though your lips are smiling  
I can see the coldness in your eyes

So hell is what you've been through  
But you just can't give in without a fight  
So break the chains that bind you  
Don't turn away

You had to have it your way  
From you that was a promise and a threat  
But welcome to the real world  
What you give is what you get

But one day when it's over  
You think that everything's been said and done  
With the world upon your shoulders  
Don't turn away, hear what I say

Talk to me, when it cuts like a knife  
Talk to me, when you fight for your life  
Who do you think you're fooling  
Not me

You act so high and mighty  
Still you need to pick yourself up off the ground

When you hunger for the big time  
Just remember who you are  
Where you came from

So pray to God for mercy  
You don't wanna kiss your life goodbye  
It takes a man to face it  
Don't turn away, hear what I say

## Mr. Government Man

Hey, hey, Mr. Government Man,  
I'm just a poor boy doin' the best that I can  
I've been stepped upon and pushed around, yes, I have  
You can tie me up, but never tie me down

Well, I was drivin' around, tryin' to find a place  
To get a beer and some cigarettes  
Pullin' up behind me, not afraid to flirt  
There's a girl in a red Corvette

I saw in her face that she wanted to race  
So I let my car out of jail  
Man, I blew it, before I knew it  
The Feds were on my tail

I knew it were trouble, but didn't wanna stop  
I couldn't forget that girl  
My dashboard slick from alcohol  
And my head still in a whirl

Just a country boy in the city lights  
Tryin' to have some fun  
But the Man behind me didn't wanna play  
He pulled out a gun

Hey, hey, Mr. Government Man,  
I'm just a poor boy doin' the best that I can  
I've been stepped upon and pushed around, yes, I have  
You can tie me up, but never tie me down

Well, I had it comin', I hit the wall  
And my car went up in flames  
My head got hammered, thrown in the slammer  
No one but me to blame

That's my story, ain't much glory  
But I know I paid my dues  
One thing I know in my heart and soul  
I ain't never gonna lose

Hey, hey, Mr. Government Man,  
I'm just a poor boy doin' the best that I can  
I've been stepped upon and pushed around, yes, I have  
You can tie me up, but never tie me down

They say I might be goin' crazy  
Hey, what else can I do  
Hey, my, my

Hey, hey, Mr. Government Man,  
I'm just a poor boy doin' the best that I can  
I've been stepped upon and pushed around, yes, I have  
You can tie me up, but never tie me down

Hey, hey, Mr. Government Man  
Don't you push me around no more
