## In the Future to Come

So many years ago  
The people on this earth, they were laughin'  
They didn't think of anything else  
Than love and peace  
But generations failed to see  
That they were causin' trouble for the future  
They didn't know that one single war  
Would continue to increase

But I'll be beside you  
'Cause I want to hide you  
I'll cover my pain  
Or I'll go insane

Oh Lord, where will it end  
When tomorrow is done  
Oh Lord, can we stop to pretend  
that we can survive in the future to come

As long as you can see  
As long as you can feel  
There's no cause for alarm  
As long as you can touch  
As long as you can move  
It ain't too bad  
But one day or another  
This world would maybe  
Be destroyed forever  
A holocaust could maybe be spread  
And drive us all mad

But I'll be beside you  
'Cause I want to hide you  
I'll cover my pain  
Or I'll go insane

Oh Lord, where will it end  
When tomorrow is done  
Oh Lord, can we stop to pretend  
that we can survive in the future to come

## Farewell

There was a time when I was satisfied  
There was a time when everything felt right  
But now's the time for me to decide

And I've only got one solution in sight

Don't know where I'm going  
But I know it feels right  
And though my feelings are showing  
I'm not afraid, it's alright

So long, farewell  
I've got to go  
Be strong, be well  
I want you to know  
That maybe we'll meet someday

Should I stay or should I go  
It was not easy to decide  
But you told me I already know  
I guess you wondered why I lied

Don't know where I'm going  
But I know it feels right  
And though my feelings are showing  
I'm not afraid, it's alright

So long, farewell  
I've got to go  
Be strong, be well  
I want you to know  
That maybe we'll meet someday

Seven Doors Hotel

Four hundred years back in this time  
Seven Doors Hotel  
A massacre took place and a young man died  
Opened one gate to Hell

The Eibon is open  
Use your eyes to read and learn  
In the end it could be your turn

1981 traces were found  
That could not exist in one's mind  
A woman could lead you, totally deceive you  
Without your knowing she's blind

The Eibon is open  
Use your eyes to read and learn

In the end it could be your turn

Seven Doors Hotel

One of seven gates to Hell

Do always watch out for things  
That you see but don't understand  
The Devil is there, always somewhere  
Ready to command

The Eibon is open

Use your eyes to read and learn  
In the end it could be your turn

Seven Doors Hotel

One of seven gates to Hell

## The King Will Return

They were attacked by surprise  
In the middle of the night  
They didn't stand a single chance  
A single chance to fight  
After the battle, they gathered around the king  
They had never seen that man so sad

I'm riding out to get those men  
Who hurt my people bad, so bad

The king will return  
With gold in his hand  
The castle will burn  
In the enemy land  
He will save our people

When two springs had passed  
A messenger came down the track  
He said that he had heard great news  
The king is coming back  
Oh, the time he was gone  
They suffered bad in misery  
They didn't know the way

Everyone was shouting  
Save our kingdom now

The king will return  
With gold in his hand  
The castle will burn  
In the enemy land  
He will save our people

They suffered bad in pain  
The time he was away  
But maybe now they could survive  
Now they could survive

When the king came down the hill  
To his people and his land  
There were many tears  
That touched the ground  
Made marks in the sand  
Yes, now they could start all over again  
And live in peace throughout the time

Everyone was shouting  
When the king came down the hill

The king is returning  
With gold in his hand  
The castle is burning  
In the enemy land

## Children of This Time

She spends one evening alone, she's on fire  
Thinkin' of you in a dream  
You come home and she says you're a liar  
Asking where have you been

But she's the angel of your heart  
There's not a thing that could set you apart  
If nothing comes by 'till the end  
If nothing goes wrong  
She will always be your friend

You're a fool when you think that she's someone  
Who would believe in a lie  
You're a fool when you don't think she's someone  
Whom you can make cry

'Cause you're the hero of her heart  
There's not a thing that could set you apart  
If nothing comes by 'till the end  
If nothing goes wrong  
You will always be her friend

You are the children of this time  
You are the bread and the wine  
You are companions 'till the end  
You've got yourselves to defend

Give her more, so much more, and you'll find out  
That it will come in return  
Tell her more, so much more about your feelings  
And she will make them burn

'Cause you're the children of today  
There's not a thing that could stand in your way  
If nothing comes by 'till the end  
If nothing goes wrong  
You will always be friends

You are the children of this time  
You are the bread and the wine  
Telling you  
You are companions 'till the end  
You've got yourselves to defend

You are the children of this time  
You are the bread and the wine  
You are companions 'till the end  
You've got yourselves to defend

Children of this time

## Words of Wisdom

So many words have passed through my mind  
Never thought I'd be so blind  
I wish I could understand you

So many things I've heard and seen  
But still I don't know what you mean  
When you say, I'm leaving you

I wish I could remember  
Everything I've learned

I've tried and I've tried to be so good  
And I know I should  
Say something before you go

'Cause every time I've done something wrong  
It's so hard to be strong  
Gone are the feelings I want to show

I wish I could remember  
Everything I've learned

Words of wisdom, teach me more  
Words of wisdom, so much more

## Paradize Bay

Lay your hand upon my shoulder  
Say something that I want to hear  
Time will wash out every trace of sadness  
If only you are near

I've tried so hard just to be somebody  
But now I'm found

And we can be together  
And travel far away  
And we can love forever  
In some old Paradize Bay

Carry me, oh, bring me out of fantasy  
And tell me this is real  
Tell me that you won't give up  
And tell me it's a good thing to feel

I've tried so hard just to be somebody  
But now I'm found

And we can be together  
And travel far away  
And we can love forever  
In some old Paradise Bay

The wind is carrying your voice  
The message is, don't ever walk away  
The only answer I can give to you  
Is that I'm always gonna stay

## Memories

There is no time to pay my sin  
And everywhere blows a firewind  
I'm all alone, trying to survive  
It's coming back into my head  
Memories of the time we had  
I'm trying hard to stay alive

The sun is down, the day is done  
The sky is dark, and I'm on the run  
Yesterday is so far away  
The wind is strong, there's something wrong  
But I just have to carry on  
For tomorrow is a brand new day  
Brand new day

'Cause I left you without saying I'll go  
Yes, I left you without letting you know

Memories

My memories are chasin' me  
Over mountains high and across the sea  
Will I ever be well again  
I want the strength to carry on  
What's done is done  
I want the power in me to remain strong  
To remain strong

'Cause I left you without saying I'll go  
Yes, I left you without letting you know

Memories

There is no time to pay my sin

And everywhere blows a firewind  
I'm all alone, trying to survive

It's coming back into my head  
Memories of the time we had  
I'm trying hard to stay alive  
To stay alive

'Cause I left you without saying I'll go  
Yes, I left you without letting you know

Memories  
Breaking my heart  
Memories  
Tearing my soul apart
